Does the Belt & Road Initiative affect electrification levels?

Learn more. Electrification is crucial for achieving global net zero emissions and reducing energy poverty, particularly in developing countries involved in the Belt and Road Initiative (BRI). This study uses the difference-in-differences method to examine the BRI's impact on electrification levels in 118 countries from 2009 to 2020.

Will China expand the Belt & Road Initiative in 2025?

Chinese finance and investments into the Belt and Road Initiative countries in 2025 H1 have accelerated significantly. For 2025, a further expansion of BRI investments and construction contracts seems possible despite (or because of) global economic headwinds driven by US-led trade impositions.

What are the Green Investment Principles for the Belt & Road?

By the end of 2022, more than 40 large global institutions had signed the Green Investment Principles for the Belt and Road. In June 2023, China Eximbank issued financial bonds for promoting international cooperation in building the Belt and Road and supporting infrastructure construction of partner countries.

How much is China engaged in the Belt & Road Initiative?

Preliminary data on Chinese engagement through financial investments and contractual cooperation for 2024 in the 149 countries of the Belt and Road Initiative show about 340 deals worth USD121.8 billion. This compares to USD 92.3 billion BRI engagement in all of 2023 - an increase of 31%.
