o You might be eligible for year-round help with utility bills through your local Low Income Home Energy Assistance Program (LIHEAP) office or the National Energy Assistance Referral Hotline at (866)-674 ...

If you're considering signing a solar contract, which may require a 15- to 20-year commitment, it's important to be prepared. In this blog, we review some common features of a solar contract. By ...

Are you considering a Sunrun solar lease or PPA agreement? Before you sign on the dotted line, review EnergySage's guide to evaluating your Sunrun offer.

A solar PPA is a financial arrangement where a third-party developer installs, owns, and maintains solar panels on your property at no upfront cost. In exchange, you agree to purchase the ...

When you lease solar panels, the provider installs and owns the system while you make a fixed monthly payment for the power it generates. You save on electricity bills without the upfront cost or ...

PPA agreements typically last 15 to 20 years. You pay for the power, not the panels. Each month, you pay for the electricity your system makes. The price is usually lower than your utility...

It can be a long-term obligation: While some third-party ownership agreements may be as short as five years, other contracts can lock you into a monthly payment for 15 to 25 years.

What a solar contract is, key terms and core elements to know, how to evaluate your contract, and the importance of understanding your agreement.

Are you considering a Sunrun solar lease or PPA agreement? ...

Head over to our Solar Financing Guide to find a detailed breakdown on how you can pay for your solar project. Your choice of ownership options affects how much money you will save on ...

# 15-year solar panel contract

A host customer agrees to have solar panels installed on its property, typically its roof, and signs a long-term contract with the solar services provider to purchase the generated power.
