The 400W and 800W Rackmount Inverters are the first addition to DuraComm's new inverter product line. These 1RU, 400 & 800 W true-sine wave inverters are designed to provide seamless 120 VAC ...

This 1U rackmount inverter is ideal for providing backup power to your essential equipment such as: telecom, audio/visual and computers. It will generate 1000-Watt of high quality pure sine power at a ...

This MINV will accept a DC input voltage while delivering a well-conditioned AC output to the load. It is designed and manufactured in SynQor's USA facilities to comply with a wide range of military ...

The Eaton INV-4820SA DC to AC Power Inverter Standalone Matrix 2000 is a reliable and efficient solution for converting direct current (DC) to alternating current (AC) power.

This power inverter provides seamless back-up power for AC powered communications equipment from the site's 48V DC battery system. A fast-acting transfer switch ensures voice and data transmissions ...

This rackmount inverter is ideal for providing backup power to your essential equipment. It will generate 1000W of high quality pure sine power at a stable 120Vac output.

Exeltech KC Series modular inverter systems were designed for space limited applications within the telecommunications, data processing, and utility industries.

Our 250 VA rack-mounted DC-AC inverters occupy only 1.75 inches (1U) of vertical rack space making it a highly desired inverter when there are space limitations. Rated for continuous 250 watts of power, ...

The 1000 VA inverter is available with integral high-speed transfer switch for ups/standby-power and fits in standard 1U, 19 inch and 23 inch racks and ensures uninterrupted operation for critical systems.

This rackmount inverter is ideal for providing backup power to ...
