The 5MW/10MWh Immersion Liquid-Cooling ESS is a next-generation utility-scale energy storage solution that integrates cutting-edge safety and efficiency. By immersing the battery in thermally ...

Available in 2.5 MW / 10 MWh and 5 MW / 20 MWh configurations. Proven rack-level battery management with String PCS optimizes overall system performance and capacity. Paired modular ...

House your entire edge computing infrastructure in a single secure, prefabricated micro data center cabinet with self-contained cooling, monitoring, & more.

LEOCH's Integrated 5MWh/2.5MW BESS is now UL 9540 certified, giving project developers and utilities the assurance needed to fast-track permitting, reduce compliance risks, and ...

Cutting-edge, fully integrated battery energy storage system with EMS. This liquid-cooled, high-density BESS is available with optional microgrid controller & ATS. With front-only access, containers can be ...

CPS is excited to launch the new 5 MWh battery energy storage system for the North American market. The battery system is a containerized solution that integrates 12 racks of LFP batteries and offers a ...

Power edge computing for 5G with advanced energy solutions. Improve data processing speeds, efficiency & network reliability.

A complete physical infrastructure solution for edge nodes. Easily deploy, manage and scale your edge computing 5G & 6G infrastructure with our rugged cabinets, power management solution and remote ...

LiquidStack's liquid edge cooling technology allows for a much greater density of processing capabilities in restricted spaces, making it ideal for cooling edge computing deployments. Ultra-compact and ...

5MW Power Storage Unit for Edge Computing

Integrated low profile micro data center for edge applications. Innovative DCIM solutions to manage and secure critical IT infrastructure. Check our offer of power protection, precision cooling and IT ...
