Our Suntera G2 is a 5.01MWh (nominal energy) energy storage system .According to the requirement of 0.5P charging/discharging ratio of energy storage system, this design adopts high-safety and high ...

The modular configuration allows for seamless system expansion to meet growing energy storage requirements, making it suitable for various commercial and industrial applications.

Helping to minimize energy costs, it delivers standard conformity, scalable configuration, and peace of mind in a fully self-contained solution. The battery system contains individual lithium-ion battery cells ...

The project features a 2.5MW/5MWh energy storage system with a non-walk-in design which facilitates equipment installation and maintenance, while ensuring long-term safe and reliable operation of the ...

If you have a query regarding our product range or services, please complete the contact form below and we'll contact you straight away.

The 5MWh BESS comes pre-installed and ready to be deployed in any energy storage project around the world. We can offer flexible deployment of multiple battery containers supporting both back-to ...

ST2752UX by Sungrow provides high efficiency, proven reliability, and advanced features to meet diverse clean energy needs.

As the energy transition accelerates, our UL-listed 5MWh/2.5MW Integrated BESS stands ready to support the next generation of power infrastructure--with certified safety, robust ...

The total capacity of the battery container is 5.016MWh, which integrates the battery system, BMS, fire suppression system, chiller, and environmental monitoring in the container, compatible with the 2h ...
