ecification Sheet EvoCharge Power Cabinets are used with EvoCharge Power Stations and distribute charging power to as many as 6 or 8 charging outputs (charge ports) simultaneously depending on ...

In this IT intensive world with heavy data traffic driven by cloud, 4G/5G and media streaming applications, IT managers are facing the challenges of increasing rack power density and limited data ...

The transformer-isolated Galaxy Series Rugged Inverters are designed for harsh environment rail, work train, and trolley applications.

The ICE-600 is a distributed 600kW high-power yet compact DC Fast charger, designed for ultra high power charging of up to 10 EVs simultaneously.

The 3U distribution is designed to meet the demand for compact and flexible DC power... The power system provides ultimate power density of 12kW with control unit within 1U 19" power... The roll-out ...

250kW and 500kW storage-only PCS could be equipped with external STS cabinet to offer up to 20ms automatically switching between grid-following and grid-forming status.

RTF300/600 Modular rectifier cabinet, 300KW and 600KW optional, can be combined with ATESS PCS to form a DC coupling solution, suitable for large industrial scenarios.

Our modular cabinet design and dynamic power management feature ensure over 99% availability. Choose Kempower for smart, user-friendly and highly reliable charging, while optimizing your business.

The ATESS RTF 600 series has a Rated voltage 400V and a rated power of 600kW. This series can withstand temperatures of -40 °C to +45 °C on full load and 45 °C to 55 °C on half load.

600kW halgesa inverter cabinet for highway use

600 kW high performance dual three-phase inverter; optimized for Wolfspeed's Silicon Carbide (SiC); low inductance; conduction optimized XM3 Power Modules.
