Why do you need a telecommunications cabinet?

Our vast selection of cabinets, thermal management, racks, enclosures for data centers, telecommunications equipment rooms, and enterprise cabling applications help optimize space, reduce energy consumption, and enhance network reliability.

What is included in a colocation data center?

Mesh walls, demarcation rack with patch panels, locking door, ladder rack and fiber raceway up to first cabinet position or up to 10 feet. Security accessories include dedicated cameras, biometric hand scanners and more. Built-to-order mesh cabinets and colocation data center cages with space assigned based on power allocations.

How long do data centers last?

Data centers replace their IT equipment much faster than the infrastructure hosting them. For example, a cabinet is, on average, used for 15-20 years, while servers have a typical lifespan of only 3 to 5 years.

Why should you choose CPI data center cabinets?

Thermal efficiency is a core focus, with built-in containment options that support the demands of modern data center cabinets. The cabinets can be paired with CPI's air containment and liquid cooling solutions for environments that require aggressive heat mitigation.

The GT-Series GlobalFrame™ Gen 2 Cabinet System is an easy-to-use, computer and network equipment storage cabinet that complies with data center, computer room and premise network ...

A highly engineered data center cabinet solution that delivers fast, built-to-order configurability, best-in-class strength, and scalability regardless of the application.

Our unique cable and connectivity expertise is central to the design of this feature-rich Rack & Cabinet system, which offers ease of installation, easy MACs and high levels of scalability. There are data ...

Upgrade your data center with durable 60KW solutions: precision cooling, UPS systems, and modular designs for optimal performance. Ideal for secure storage and global expansion.

## 60kW Data Center Cabinet for Communication Equipment Room

We provide the right cage, suite or server cabinet options to accommodate your equipment size, power and cooling requirements while providing layers of physical security to protect ...

We help you choose the right cabinet based on your equipment dimensions, cooling needs, power requirements, and future scalability. If you're unsure, our team is here to guide you through the ...

Legrand offers a configure-to-order cabinet platform that offers best-in-class energy efficiency with ready-to-ship parts for shorter lead times and faster deployment. Data centers replace ...

nVent HOFFMAN provides high quality, configurable racks and cabinets designed for any Data Center and Networking application.

These cabinets are ideal for securing equipment in spaces where room for a traditional rack or cabinet is limited or not available. Their modular design and accessories allow for numerous configurations to ...
