The Mobil-Grid™ is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and batteries.

These factory-assembled and -tested solutions are ideally suited for permanent or semi-permanent usages. These include grid integration of renewable sources, power supply to urban areas, railways, ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, ...

The PFIC60K64P42 is a compact all-in-one solar storage system integrating a 60kW power output, 64kWh energy storage capacity, and 30kWp high-efficiency foldable PV modules--engineered for off ...

Complete containerized PV power station systems with integrated mounting, inverters, and monitoring. Our plug-and-play solutions deliver 50kW to 2MW capacity with rapid deployment in under 72 hours. ...

Discover Solar GEM™, a prefabricated, mobile solar solution designed for off-grid energy needs. Scalable, robust, and ready-to-deploy worldwide.

Ranging from 60kW to 240kW peak power output and an average Solar Energy storage of between 180kWh to 540kWh per day. The Containerised Solar Generator is a quickly deployable, highly ...

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator

60kW Paris Solar Containerized Power Container for Power Grid Distribution Stations

with collapsible PV modules as a mobile solar system, a grid-independent solution ...

BoxPower's flagship SolarContainer is a fully integrated microgrid-in-a-box that combines solar PV, battery storage, and intelligent inverters, with optional backup generation.
