What arc flash mitigation solutions do you offer?

We offer a variety of arc flash mitigation solutions, such as switchgear, software, and circuit breakers, for both passive and active arc flash protection. Our systems comply with the National Fire Protection Association (NFPA) 70E: standard for electrical safety in the workplace. Need help?

What is AFR arc protection relay?

The AFR series arc protection relay detects electrical arcs in medium and low-voltage equipment, isolating power to minimize the risk of electrical fires. It works to prevent arcing faults in busbars, metal-clad switchgear, and cable boxes.

What is an arc flash?

An arc flash is an electrical accident that creates a high-temperature explosion. It can vaporize surrounding metal, set fires, and result in severe burns. Although rare, arc flashes can have grave consequences so you need to ensure your people and site are always protected.

How do arc flash relays work?

All Arc flash relays can connect with remote light sensors to detect arc flashes quickly and send a trip signal to interrupt power. They can be used for stand-alone devices or embedded in complex switchgear layouts. Our arc flash relays are trusted for workplace safety by B2B buyers worldwide.

Custom design & fabrication of arc flash rated electrical switchgear in China; technical support from your initial design of your power distribution system;

NHP's Arclogix Arc Flash relay range optically detects electrical arcs in switchboards and quickly trips circuit breakers, limiting potential damage and expensive downtime.

Passive arc flash protection solutions There are three design philosophies which protect operator and equipment in the event of an arc flash incident, one or more may be adopted within the ...

What arc flash mitigation solutions do you offer? We offer a variety of arc flash mitigation solutions, such as switchgear, software, and circuit breakers, for both passive and active arc flash protection.

For switchgear with multiple arc flash monitoring zones, our AFR-4 is ideal. For both simple and complex switchgear with over 12 arc flash zones, our AFR-M offers an ideal solution. Our arc flash protection ...

We offer a variety of arc flash mitigation solutions, such as switchgear, software, ...

With a fast relay output speed up to 5ms, AFR-4 can minimize or completely eliminate arc flash damage, improving system safety and reliability. It can be used in various arc protection ...

Eaton provides arc-flash protection and advanced safety systems for low-voltage switchgear to safeguard your business and employees against unnecessary risk

An arc flash in a low voltage switchboard can be catastrophic in terms of safety of people, and to the ongoing continuity of your business. Eaton provides a wide range of products and services ...

We offer a variety of arc flash mitigation solutions, such as switchgear, software, and circuit breakers, for both passive and active arc flash protection. Our systems comply with the National Fire Protection ...

Bremca can offer both passive and active arc fault mitigation solutions that are designed to offer added peace of mind when it comes to protecting people, electrical switchgear assets and infrastructure. ...
