The mobile solar containers and portable solar chargers are designed with easily foldable solar panels which makes them ideal for remote areas and versatile applications like mining, construction, events ...

The project, fully equipped with Sungrow FPV's floating solar system solutions, supplies clean and stable power to the Carmen Copper mining site, contributing to the Philippines' national target of ...

In 2018, the SolarGEM[®] was awarded the Efficient Solution Label by the Solar Impulse Foundation and received a perfect score on all environmental and socio-economic criteria.

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

Mindanao Container Terminal (MCT), operated by International Container Terminal Services Inc. (ICTSI) at the Port of Cagayan de Oro, has started operating exclusively on solar power during daylight hours.

U.S.-based engineering, procurement and construction (EPC) contractor Black & Veatch has completed its work on the 5-MW floating solar project designed to power mining operations in the Philippines.

LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar arrays, reducing reliance ...

Black & Veatch, a global leader in human critical infrastructure, has successfully delivered the Philippines' first megawatt-scale floating solar photovoltaic facility, marking a milestone in...

Electrical cabinets and containers for energy conversion and storage - from 3,5 kVA to 180 kVA - 14,4 to 520 kWh. The 130kWp redeployable solar solution for intermediate project size and implementation ...

Automatic Solar-Powered Containerized Mining Equipment from the Philippines

The market for containerized solar generators in the Philippines is emerging, offering portable and renewable energy solutions. These systems are particularly useful in remote areas and during ...
