Where can I buy solar panels?

Generate clean, renewable electricity for your home, business, marine vessel, or RV using solar panels from EcoDirect! Located near San Diego, California, EcoDirect sells solar panels online and offers will-call options for local customers. For sizing help, please call us at (760) 597-0498 x2.

How much do solar panels cost?

Solar system prices vary, depending on the type of solar panels, manufacturer, cell size and wattage output. Our solar panels cost between \$300 to \$400 per panel, which is a competitive price considering the brands' top-tier quality and high standards. Some solar panels can run as high as \$600.

Are solar panels sold separately?

*Solar panels are not sold separately. Grid tie inverters convert DC to AC power - which is the type of electricity used in homes. They also provide net metering capability. Batteries can store excess energy when rates are low and use it during peak hours, optimizing cost savings.

How can a solar panel system benefit my home?

Set up your solar panel system on the ground for optimal sunlight exposure and efficiency. Save space while generating clean, renewable energy from the comfort of your home. Maximize energy production with individual inverters for each solar panel to enhance system performance, flexibility, and efficiency.
