-----

This product features a prefabricated cabin design for flexible deployment, convenient transportation, and no need for internal wiring and debugging.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency ...

Each BOSS.6 System can hold up to six PHI-3.8-M Batteries to expand your system to a total of 22.8kWh. Encased in a carbon-steel enclosure, the BOSS.6 ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

The HJ-G50-112F is a highly efficient and integrated outdoor cabinet energy storage system. The system adopts modular air-cooled architecture, with a rated AC output power of 50kW and a total ...

Versatile energy storage for commercial and industrial applications. The demand for power, and variation in the demand, continues to increase due to end-user loads and electrification, including the ...

Equipped with an independent liquid cooling system, it achieves higher energy density and enhanced heat dissipation within a compact footprint, while offering ...

GridSolv Quantum can be paired with leading inverter manufacturers' products, lending the flexibility to parallel several enclosures needed to configure an ESS to meet project needs and grid connection ...

An air-cooled C& I (Commercial and Industrial) Battery Energy Storage System (BESS) cabinet is a type of energy storage solution designed for commercial and industrial applications.

# Cabinet energy storage system equipment product specifications

It integrates EMS, advanced liquid cooling technology, and high-quality LiFePO4 batteries to ensure safety, efficiency, and longevity. Ideal for peak shaving, ...
