What should I do if I find myself locked out of a locker?

If you find yourself locked out of a locker, your first point of call should be to contact the person in charge. These could be: In schools, gyms, or workplaces, janitors and maintenance personnel often have master keys or tools to open lockers safely.

How can I avoid losing my locker key?

To avoid losing your locker key, you could consider a storage solution that doesn't rely on keys to be opened. These include: Combination lockers can be opened with a code, rather than a key. Users set a combination of numbers, which they need to enter to access the locker.

Can you open a locker without a key?

Before we reveal our solutions, it is important to note that opening a locker without a key must be done in the correct way. Here is why: Picking or tampering with a lock without permission is usually illegal, as it's considered unlawful entry. This could ultimately result in fines, legal charges, or even criminal prosecution.

How do you open a locker if it won't open?

Open the lock. Pull the lock open and out of the hole, or pull the latch or handle, if there is one. Otherwise, tug on the knob to open the locker. If your locker just won't open, try it again with the last number being five before or after your "official" last number.
