What is the best 24 volt lithium deep cycle battery?

This Ampere Time model is a great option if you're looking for a 24 volt lithium deep cycle battery that doesn't break the bank. It's good to keep in mind that getting one 24V 100Ah battery comes considerably cheaper than getting two 12V 100Ah models.

How long does a 12V lithium battery last?

A 12v lithium battery can last up to 5,000 cycles or 10 years. Lithium batteries are rated to last longer than lead acid batteries, which can gas out when discharged past 50%. Even after 5,000 cycles, these batteries can still function at 70% capacity.

Are lithium deep cycle batteries better than SLA batteries?

In addition to this key advantage, our testing shows that lithium deep cycle batteries can withstand many more charge/discharge cycles than SLA batteries, and because of this have a life expectancy that's about 10 times longer than their lead acid counterparts.

Should you buy a lithium boat battery?

Taken together, these advantages mean that you're getting more bang for your buck with a lithium boat battery, even if the upfront cost is higher. And especially when you factor in the longer total lifespan, you'll end up saving money in the long run with a lithium deep cycle boat battery. Is it worth getting a lithium marine battery for your boat?
