Half-cell battery technology, brand new circuit design. Super frame, can bear 5400Pa mechanical load test. Drainage system design to prevent deformation and cracking of the frame due to freezing. ...

Colored glaze integrates photovoltaic power generation technology and architectural glass production technology. It is a new type of energy-saving power generation building material for green and low ...

Using interlayers laminated between two pieces of glass, the Vanceva color system offers architects and designers unparalleled creative freedom to incorporate color into glass and glazing systems.

Novergry offers three types of BIPV solar modules: Double Glass PV panels, See-Through PV Glass series, and PV Colorshine (opaque) series. These panels are available in various colours, ...

Glasses laminated with Vanceva are composed of two glass sheets between which 1 to 4 layers of PVB are inserted, either transparent or translucent, combined so that they form a wide color palette ...

With customized color options, the Colored Series can be used to create striking architectural designs while reducing energy consumption and carbon emissions. Inherent advantages of integration in ...

Understanding what PVB double glass modules are, how they function, and who the key players are can help stakeholders make informed decisions in the evolving solar landscape.

Color Options: The panels come in multiple color options, including black, transparent, and white, to match different architectural designs. Custom colors, such as wood grain or acid-etched glass, can ...

Our dual glass panels meet all safety requirements, both flexibility, double insulation, or high resistance to UV rays, very long durability by not having elements that degrade in the face of weather and / or ...

Color PVB high efficiency double glass components

The Vanceva(TM) Color PVB System is built on a basic palette of 16 colors that can be combined in up to four layers to produce custom-colored laminated glass. Each Vanceva color combination is assigned ...
