Here you can see how much private consumers and businesses are paying for electricity and natural gas, and how prices have developed. The statistics also highlight the price differences of normal and ...

With Russia invading Ukraine, it has had a profound effect on electricity prices in Denmark. The war in Ukraine, sanctions against Russian oil, and rising oil and gas prices have led to ...

By mid-September 2025, Denmark recorded a record 650 hours of negative electricity prices, matching all of 2024, driven by strong winds and high renewable output.

Elsystemansvar A/S (subsidiary of Energinet) has asked Ea Energy Analyses to analyse the benefits and main drivers for the installation of storage units in the Danish power system.

Denmark's ambitious renewable energy targets--aiming for 100% clean electricity by 2030--are driving unprecedented demand for battery storage solutions. With wind power supplying over 55% of ...

Electricity prices in both Danish bidding zones fell significantly compared to 2023, largely due to lower gas prices, reduced European demand, and continued growth in renewable energy production.

Denmark has transposed this requirement into national law and regulators (the Danish Energy Agency and Utility Regulator) enforce it. In fact, Nordic markets have long been "spot-price driven" - many ...

The volatility of gas and electricity prices in recent years has shown with clarity how decisive energy prices are for inflation. In the coming years, cold winters or reductions in natural gas ...

Let's face it - when you hear "Copenhagen," your mind probably jumps to colorful Nyhavn harbor or mouthwatering Danish pastries. But in 2025, there's a new star stealing the spotlight: ...
