Will desert technologies build a solar PV manufacturing plant in Saudi Arabia?

Desert Technologies is the latest company to announce the construction of a solar PV manufacturing plant in Saudi Arabia. Image: Desert Technologies via LinkedIn. Solar PV infrastructure company Desert Technologies intends to build a solar cell and module assembly plant in Saudi Arabia.

Where is desert technologies establishing a new solar panel factory?

Source and photo: Desert Technologies /LinkedIn Desert Technologies has announced a \$200 million investment to establish a new solar panel factory in Jeddah's Third Industrial Zone, Saudi Arabia.

Why is desert technologies investing in a solar plant in Jeddah?

The company is investing in a solar plant in Jeddah to produce 5 GW of solar panels and cells, supporting renewable energy in the country. Solar energy expert Desert Technologies has announced an investment of 750 million Saudi riyals (\$200 million) to establish a new solar panel manufacturing plant in Jeddah's Third Industrial Zone, Saudi Arabia.

How many solar panels will desert technologies produce?

The factory will have a production line for 2 GW of solar panels and another for 3 GW of photovoltaic cells, thus covering the entire production process to meet the demand for solar solutions from Desert Technologies and third parties.

This makes it one of the largest photovoltaic production centers in the Kingdom and reinforces Desert Technologies' role as a key driver in the local development and manufacturing of ...

Solar energy expert Desert Technologies has announced an investment of 750 million Saudi riyals (\$200 million) to establish a new solar panel manufacturing plant in Jeddah's Third ...

From project development to manufacturing, EPC, and O& M, we deliver end-to-end energy solutions. Investing in next-generation solar and energy storage to accelerate the clean ...

In July, the Saudi Arabia's Public Investment Fund (PIF) signed two solar PV manufacturing agreements that would see 30GW of domestic manufacturing capacity built in the ...

Desert Technologies said last week that the solar modules produced at the plant would meet growing local demand for solar solutions and strengthen Saudi Arabia's position in global non ...

Saudi Arabia's efforts to build a local solar PV supply chain are gaining momentum as Desert Technologies announces 5 GW cell and module production plans for the kingdom.

Saudi Authority for Industrial Cities and Technology Zones, (Modon) signed a contract with Desert Technologies, a leader in renewable energy solutions and the one of the first Saudi ...

Desert Technologies (DT) is a prominent manufacturer of photovoltaic (PV) solar panels and an integrator of energy storage systems, emphasizing its expertise in renewable energy solutions.

Setting up a turnkey PV production line configured to produce these specialized modules allows a new manufacturer to meet a clear market need that generic, mass-produced imports cannot ...

This initiative is part of a broader trend in the Middle East, where solar PV manufacturing is expanding rapidly. Earlier this year, Saudi Arabia's Public Investment Fund signed agreements for ...
