What is a solar power contract?

A solar contract is a signed agreement between a person and a solar power installation company that clearly outlines every part of the solar panel installation process, including the steps before, during, and after the actual installation, and who is responsible for each.

What is a solar photovoltaic (PV) installation?

A solar photovoltaic (PV) installation comes with a proposal and a contract, so if you're thinking about going solar, it's important to understand what you'll be signing.

Should you sign a home solar contract?

Even if you're excited about going solar, dealing with a home solar contract is probably not the exciting part. Yet, a home solar contract has terms and details you should understand before signing a major, long-term investment. A good one protects you and the company you'll be working with for many years to come.

What should I know before signing a solar contract?

Before you sign the contract, be sure you understand the terms--including what happens if a system component breaks or the manufacturer goes out of business--and don't hesitate to ask questions. Check with your local government to find out if there are any solar consumer protection programs.

You've decided to go solar. Now it's time to start thinking about how you're going to pay the solar bill. Like buying a car, you can purchase the system outright or lease it. You could also sign ...

What a solar contract is, key terms and core elements to know, how to evaluate your contract, and the importance of understanding your agreement.

What Is Direct Ownership? What Is A Solar Lease? What Is A Power Purchase Agreement? How Solar Can Handle All of This For You? What to expect? Just like a lease, a Power Purchase Agreement (PPA) constitutes third-party ownership. The solar panels on your roof are owned by the PPA provider, not you. But instead of paying for the system, you pay a monthly fee for the energy it produces. Since those contracts usually cover a 25-year period, yo... What to watch out for? The pros and cons of a PPA are very similar to a lease agreement. One thing you should especially look out for in a PPA is that the amount of energy the system produces actually meets your needs. The contract will typically require you to buy all the energy the system generates, whether you can use it o... See more on solar BAI Group Inc. 5 Things You Should Consider Before Signing a Solar Contract? Before signing any contract, it's a good idea to be aware of things like jargon, acronyms, common practices, and assumptions.
