Do I need a base station to use Wyze Cam Outdoor V2?

Base Station Required: The Wyze home security system bundle requires a base station to operate. Note that this functionality is not possible using the camera alone. Connect up to 4 cameras to a single base station and view all video streams in the Wyze app. **2-Way Audio:** Wyze cam outdoor v2 now comes with simultaneous 2-way communication.

Can Wyze base station be used wirelessly?

Wyze Base Station can be used wired with an ethernet cable or wirelessly with WiFi. The base station requires an ethernet connection to the router during setup. Once setup is complete, you can either keep the wired connection, or switch to a WiFi connection in the Wyze app. The camera will function while charging.

How many cameras can be connected to a Wyze base station?

Cover every corner of your home. Low profile base station. Connect up to 4 cameras to a single bay station and view all video streams in the Wyze app. The starter bundle includes one Base Station. (Additional cameras sold separately and available at general launch.) Respond in real time.

Why should a base station be placed indoors?

Positioning the base station indoors also mitigates the challenge of retrieving video evidence if the outdoor cameras are tampered with, guaranteeing stable, secure, and uninterrupted recording. *The base station supports direct storage using SD cards ranging from 16GB to 256GB.

Why does the Base Station only support 4 cameras? What is the temperature range for the Wyze Cam Outdoor? Will Wyze Solar Panel keep charging the camera past 100%? Can I set up the Wyze Base ...
