Exponent's comprehensive regulatory and performance testing for energy storage products includes specialty equipment, such as: Fully automated MACCOR battery testers with a combined total of ...

UL can test your large energy storage systems (ESS) based on UL 9540 and provide ESS certification to help identify the safety and performance of your system.

The secret often lies in energy storage battery test racks - the ultimate performance boot camp for battery modules. As renewable energy capacity surges (global installations hit 3,372 GW in 2024 [1]), ...

Using high-precision measurement technology and powerful climate, shock, and vibration systems, we test your battery under realistic and extreme conditions. Whether thermal shock, IP or ...

Their state-of-the-art test chambers and systems are designed to meet the evolving needs of the energy storage sector, ensuring that batteries are safe, durable, and efficient in various environmental ...

In order to test really large battery packs under high loads, we have built a new and spectacular testing system, for example. The 17-m³ test room combines a climate test with special dynamic load tests ...

CSA Group will evaluate or test your projects including cells, packs, appliances and tools, e-mobility devices, and energy storage systems at our state-of-the-art laboratories. We can also conduct an ...

Our test solutions are designed to test battery cells, modules, packs and battery management systems for e-mobility, mobile, industrial, and stationary use.

Stropower Energy Storage Test System is specially engineered for testing high-power, high-voltage energy storage systems. With voltage ratings up to 2500V and power ratings up to 7MW, it is built to ...

Energy storage battery cabinet comprehensive tester

We offer a comprehensive testing solution for energy storage systems. Fully intuitive and flexible loading, unloading, characterization and aging tests.
