## What is the Enphase Energy System?

The Enphase Energy System helps people make, use, save, and sell their own power. This includes our industry-leading app, which provides unprecedented data and control in the palm of your hand.

### Who is Enphase solar?

Founded in 2006, Enphase transformed the solar industry with its revolutionary microinverter technology, which turns sunlight into a safe, reliable, resilient, and scalable source of energy to power our lives.

### Where is solar energy available in Cote d'Ivoire?

Cote d'Ivoire has several areas with great solar energy potential, with the highest DNI solar intensity reaching 5.7 kWh/m<sup>2</sup> per day recorded in the northwest part of country, between Denguele and Savanes districts. The strongest wind speeds of 4.0-5.0 m/s at 50 m are distributed in southern part of country, along coastline of the Gulf of Guinea.

### Does Cote d'Ivoire have hydropower?

As of 2023, hydropower in Cote d'Ivoire accounted for about 30% of electricity generation. Although periods of severe drought sometimes lead to interruptions in supply, the realization of untapped hydropotential could be a cornerstone for the development of the energy sector. Table 2.
