Imagine if your local supermarket could store enough solar energy during business hours to power its refrigeration all night. That's exactly what's happening at Lotus Mart's Shenzhen location since ...

After five years of development, GAC AION has developed into a world-class alternative energy vehicle enterprise with two factories, an annual production capacity of 400,000 units, and an average growth ...

The GAC Aion LX embraces avant-garde solar technology that transcends the norms of conventional electric chariots. The enlistment of solar panels augments the energy efficiency of the ...

The GAC Aion V has made its Malaysian appearance, following its Thailand market launch last year where it is on sale as a single variant.

AION Y: New-generation electric SUV with futuristic design and smart cabin. Equipped with ultra-safe battery, high-efficiency electric drive, and intelligent connectivity.

GAC NE will produce the Aion S at its new Smart Eco-Plant, completed in December 2018, and envisioned for 200,000 cars per year in the future.

Farasis will provide LFP batteries for two GAC Aion models, with the order totaling over 10 GWh.

The Aion S is also China's first vehicle to use solar power. Solar panels on the sunroof reduce power required for charging and provide an energy-efficient internal ventilation and...

The Aion LX is an electric SUV equipped with the latest intelligent driving technology, including autonomous driving assistance level 3, and uses solar power to create an energy efficient interior cabin.

Voice integration in the car allows for control of air conditioning, navigation system, and power windows.

GAC AIONS Solar Power Generation System

Alongside the other features is a 12.3-inch infotainment screen. [3] To power the interior, the car has ...

The Aion S was unveiled at Auto Guangzhou in November 2018. It went on pre-sale in March 2019 and officially on sale in May 2019. It was GAC New Energy's first car under the Aion brand. The first models to launch are the higher trim levels, featuring a 184 hp (137 kW; 187 PS) and 300 N·m (221 lb·ft) electric motor and a NEDC range of 510 kilo...
