In the least, crack open a nearby window a 1/2" when burning. Is there a whole house ventilation system installed? If not, how does the house get its make-up air? PE Alderlea T6, Jotul ...

The house has radiator heat. The boiler kicks on intermittently when the thermostat shows that the house is 4-5 degrees above the set temperature. Is this a design feature of high ...

The past few days, creosote is running down the outside of the pipe that is inside the house, between the ceiling and the stove. The exterior pipe looks fine. Also, this fall we had resealed ...

I will start by saying that I have never spent so much time and effort into something and still lack proper understanding of operation. My frustration with this stove has been immeasurable. I ...

This is the first year I've had an issue with a film on the windows in the house almost as if a smoker lived here-no one smokes! Also noticing an increased level of dust-or maybe it's the same ...

If you are getting smoke in the house or you stove just don't seem to be burning like should. Check the door seal and latch for a tight fit. Check the ash pan for shut tight and latched If all ...

The house is fairly well insulated with good windows. It runs fairly stable around 60 on second floor. I run first floor at around 65. this is with temps in the teens at night and twenties ...

Hey guys, So I have a very small house in Western MA (main floor just under 900sq ft + walkout basement/built in garage which will not be heated, about 700sq ft of basement that will be ...

The 500# tank is probably connected with a copper line with a fitting on the end to mate to the tank's nozzle. To use the 100# tank first compare the nozzle on it to the 500# tank and see if they ...

we are looking at buying a house that has a stone fireplace in the living room and a place in the basement to

House circuit breaker factory in Bahrain

connect a woodstove, the house is 1456 sq ft on one floor and the basement is ...
