Make wiring by Multi-connecting cables between the PV modules in series or parallel connection, which is determined by user's configuration requirement for system power, current and voltage.

The interconnect cable should be securely fastened to the module frame, Cable support should be done in a way to avoid the connector from scratching or impacting the back sheet of the module.

All instructions should be read and understood before attempting to install, wire, operate and maintain the module. Don't lift up PV modules using the attached cables or the junction box. Do not touch live ...

JinKoSolar PV Modules Installation Guide The JinKoSolar Photovoltaic Modules Installation Manual provides essential guidelines for the installation, ...
