Will Huawei build new solar power stations in Sudan?

"The Huawei delegation revealed the company's intention to implement a huge project to build new solar power stations... to enhance Sudan's renewable energy sources," the statement said. Sudan's power infrastructure has been severely damaged during the ongoing conflict.

Will China build a solar power station in Sudan?

July 2,2025 (PORT SUDAN) - China's Huawei has proposed building solar power stations in Sudanwith a capacity of over 1,000 megawatts (MW),the country's energy ministry announced on Wednesday,as the conflict-hit nation struggles with extensive damage to its power grid.

Will Huawei support the electricity network in Port Sudan?

The Huawei delegation also presented proposals to support the electricity network in Port Sudan,the eastern city that now serves as a government hub,the ministry said.

What has happened to Sudan's power infrastructure?

Sudan's power infrastructure has been severely damagedduring the ongoing conflict. The paramilitary Rapid Support Forces have bombed electricity transmission and distribution stations,and thermal plants in the capital,Khartoum,have also sustained widespread damage. The destruction has led to a surge in the use of small-scale solar energy.
