-----  
**Are solar panels free?**

The federal government does not have any programs that offer totally free solar panels. However, several state and federal government programs can help you access solar energy equipment with lower upfront costs. These tax credits and incentives can reduce solar installation costs, making solar energy more accessible.

**Can you get free solar panels on a roof?**

Companies offered to pay to lease your roof from you for 20-25 years and, in exchange, would install and maintain solar PV panels on it. You didn't have to pay upfront for the panels, and would also benefit from the free electricity produced by the system. But there are very few free solar panel schemes available now.

**How much do solar panels cost?**

On average, solar panels cost \$18,000 to \$43,000 before any financial incentives. Many of these programs are only available to people who buy their solar panels. It's worth mentioning that you can finance the cost of your solar panels with a solar loan, reducing your initial investment to just a down payment.

**Do you have to pay for solar panels?**

Expect to pay for them later on. Companies offering "free" solar panels may require you to sign a solar panel lease or power purchase agreement (PPA). Tax credits and other incentives can reduce the upfront costs of going solar without committing you to unfavorable terms -- just make sure they're legitimate.
