Are solar panels a scam?

Solar panels themselves are not a scam. When the sun shines on solar panels, they produce electricity that can be used to power appliances and devices in your home. Making your own solar energy this way saves you money on your utility bills. That's not to say solar panel scams aren't real--just that the technology itself is not the problem.

What is solar panel fraud?

Solar panel fraud occurs when unscrupulous companies or individuals deceive homeowners through misleading sales practices, hidden fees, and false promises about solar energy systems. These deceptive practices have multiplied as the residential solar energy industry has expanded significantly over the past decade.

How do I avoid getting scammed with solar panels?

To avoid getting scammed, you need to know what to look out for and when to walk away. Here's our guide to spotting solar panel scams and finding a great installer. If something you see or hear from a salesperson sounds too good to be true, it probably is.
