Italian manufacturers of photovoltaic modules and systems. Design and manufacture of standard, custom and coloured photovoltaic modules. Development of Building-Applied Photovoltaics (BAPV), ...

Transparent Backsheet Series offers a versatile solution for distributed PV applications, perfectly tailored to Italian local market. This series boasts exceptional features, including high light ...

Double sided photovoltaic module with 580WP from JA Solar. The N-type double glass module with multi-busbar technology and the half cells ensure high efficiency. The presence of 108 cells ...

The glass-glass modules with bifacial technology from LONGi Solar combine high energy yields with a robust design - ideal for PV projects with high demands on service life, stability and yield optimization.

The new double-sided n-type Silk#174; Nova Duetto high efficiency glass/glass panel with 132 half-cut cells, with a power range from 620 to 630 Watts, completes the ...

Traditional solar panels typically feature a glass front and a polymer backsheet. In contrast, double glass modules replace the ...

Excellent product appearance and performance Two-sided double-glazed ...

Photovoltaic panels generated totally in Italy with a truly revolutionary customer approach. High-quality panels for homes, businesses and large facilities.

Creation of a new solar module manufacturing plant in Benevento, Southern Italy. The business unit will provide solar panels for agro-installations (AgroPV) that produce electricity, give shade to plants and ...

Compared to traditional single glass modules, double glass modules offer significant advantages, particularly

Italian double-sided double-glass solar modules

in terms of efficiency and durability. The rear glass layer ...
