Where is Ivory Coast's first solar power plant located?

Boundiali(Ivory Coast) (AFP) - The sun beats down from a cloudless sky on the town of Boundiali,where Ivory Coast's first solar power plant embodies the drive to embrace clean energy without abandoning fossil fuels. Issued on: 07/06/2024 - 11:51 Modified: 07/06/2024 - 11:49

How much solar energy will Ivory Coast have in 5 years?

"In five years,the share of solar energy will be 9%," stated Prime Minister of Ivory Coast,Robert BeugréMambé during the power plant inauguration on April 24. Its capacity is set to expand to 80 MW by 2025,with financing for the expansion already approved by the government.

Who financed the Ivory Coast solar power station?

The 75.6-million-euro (\$82.1-million) cost of building the solar power station was financed by Ivory Coast,a German loan and a European Union grant. "This is the result of the EU's long-standing commitment to the renewable energy sector,with almost 140 million euros since 2017," EU ambassador to Ivory Coast Francesca Di Mauro told AFP.

How much power does the Ivory Coast have?

Its capacity is set to expand to 80 MW by 2025,with financing for the expansion already approved by the government. The Ivory Coast currently has installed power capacity of 2,907 MW,with seven operational hydroelectric dams serving as its primary renewable energy source alongside four existing gas and oil-fired thermal power plants.

The Bondoukou Solar PV power plant will generate 85 GWh of clean energy, powering approximately 358,000 households, and will offset more than 52,000 tons of CO2 emissions. The US\$60 ...

These projects all rely on a solid understanding of the basics of solar panel manufacturing to ensure quality and performance. AMEA Power"s Global Impact with the Ivory Coast solar project AMEA ...

Ivory Coast inaugurates its first solar power plant in Boundiali, marking a shift towards renewable energy. The project aims to reduce reliance on fossil fuels and double its capacity to 80 MWp by 2024. It ...
