At Chroma Energy Group, we provide state-of-the-art Battery Energy Storage and Microgrid solutions that enhance energy resilience, efficiency, and sustainability in Kingston.

Commercial battery backup system with 358V-512V high-voltage architecture, scalable capacity, long cycle life, and smart monitoring for critical commercial and industrial loads.

TVA is accepting proposals from qualified integrators and providers to design, engineer, build, operate, and maintain a battery energy storage system in Roane County, Tennessee.

Kingston's solutions bridge the gap between intermittent solar/wind power and 24/7 energy reliability. A battery storage system acts like a rechargeable "power bank" for entire cities - storing surplus energy ...

The Tennessee Valley Authority is calling on the nation's premier Battery Energy Storage System (BESS) developers to submit proposals for a 100-megawatt BESS system at the utility's ...

Kingston Fossil Plant will become a state-of-the-art energy complex that includes natural gas, solar energy, and battery storage -- the first of its kind for TVA.

Imagine a world where energy storage is as transparent as glass yet powerful enough to support entire cities. That's the promise of Kingston Power Generation Glass Energy Storage--a cutting-edge ...

That's the power of supercapacitors. The Kingston Supercapacitor Energy Storage System is leading this charge, offering unmatched speed and reliability for industries grappling with energy volatility. ...
