This isn't fiction - Kathmandu's power demand grew 18% annually since 2020, yet 6-hour daily blackouts remain common. The solution? Strategic energy storage deployment. "Energy storage isn't just technology - it's the ...

Gham Power, in partnership with Practical Action and Swanbarton, has secured a project from UNIDO to install a 4 MWh energy storage system in Nepal, one of the largest in the country.

The Nepal Electricity Authority is prioritizing the construction of ...

Kathmandu, March 2, 2025 - The Nepal Electricity Authority (NEA) has prioritized the development of pumped storage hydropower projects to manage daily fluctuations in electricity demand and enhance the country's ...

This pioneering project is set to transform industrial energy use by replacing polluting diesel generators with a large-scale battery storage system powered by solar energy.

As of now, the private sector does not have licenses for developing storage projects, which is also an indication of lack of interest because these projects come with significantly higher costs and risks ...

Representing Nepal at the launch were Nepali Ambassador Bharat Kumar Regmi, Gham Power CEO Anjal Niraula, and teams from Swanbarton and Practical Action. This groundbreaking project will ...

The Nepal Electricity Authority is prioritizing the construction of pumped storage hydropower projects to address fluctuations in electricity demand at different times of the day and ensure energy security ...

Nepal's energy future lies not in hydropower alone, but in a combination of hydro, solar and storage. The country receives an average solar radiation of 4.5 to 5.5 kWh/m²/day - sufficient...

Latest on energy storage projects in Nepal

Take Nepal's first solar-storage PPA signed last week - a 25-year deal guaranteeing 14% IRR through monsoon/winter price arbitrage. As Asian Development Bank's energy lead Priya Singh puts it: "Storage isn't ...

Nepal has only two storage projects--Kulekhani I (60 MW) and Kulekhani II (32 MW). The project, which will be Nepal's third storage type, is 150 km west of Kathmandu on the Seti river near Damauli ...
