-----  
How many countries in Latin America have 5G services?

As of March 2023, eight countries in Latin America had launched commercial 5G services. The number of 5G connections is forecast to grow steadily over the next couple of years, before accelerating in the second half of the decade as new 5G markets go live and existing networks expand to cover new areas.

Is 5G FWA the most attractive 5G use case in Latin America?

According to the GSMA Intelligence Consumers in Focus Survey, 5G FWA is an extremely or very appealing proposition for two thirds of consumers in Latin America, making it the most attractive 5G use case (see Figure 16).

Will 5G increase CapEx in Latin America?

Operators in Latin America have invested \$54 billion in mobile capex over the last five years - mostly on deploying and expanding 4G networks. The rollout of 5G networks across the region is expected to drive a slight increase in capex levels, but a spike is unlikely.

How many 5G subscribers will Brazil have by 2025?

Around a fifth of the 52 markets, including Brazil, are expected to have more than 1 million 5G FWA subscribers by 2025. Beyond FWA, the GSMA Intelligence Consumers in Focus Survey shows consumers in Latin America have a strong interest in many other 5G use cases.
