Who is NextEnergy Solar Fund?

NextEnergy Solar Fund ("NESF") is a leading specialist solar energy and energy storage investment company that is listed on the main market of the London Stock Exchange. NextEnergy Solar Fund invests primarily in utility scale solar assets, alongside complementary ancillary technologies, like energy storage.

How do private equity investors finance the new energy economy?

A research-backed ranking and directory of private equity investors financing the new energy economy--spanning renewables, storage, grid infrastructure, and digital-power convergence. Private capital is the engine of the energy transition.

Who owns and manages battery storage in the UK?

Zenobe Energy is the largest independent owner and operator of battery storage in the UK. It buys and manages grid-scale batteries for its commercial customers, such as utilities and electric-vehicle operators. Hydrostor is a creator of Advanced Compressed Air Energy Storage (A-CAES) - long-duration, emission-free, economical energy storage.

Why should we invest in energy storage?

By providing low-cost funding for breakthrough storage solutions, we help bring clean electricity to millions of people when they need it. The rapid expansion in intermittent sources of clean energy such as wind and solar power must be matched by investments in energy storage to ensure communities get electricity when they need it most.
