Loncin General (603766) said on the interactive platform that the company's EP500 portable energy storage power supply has been officially released on November 25, 2021, and is ...

A new long duration energy storage system that deploys molten tin for heat transfer has received \$20 million in Series A Plus funding.

Loncin's energy storage solutions seamlessly integrate with various renewable energy sources, including solar panels and wind turbines. By investing in such versatile systems, users can ...

Here are ten notable innovations taking place across different energy storage segments, as highlighted in GlobalData's Emerging Energy Storage Technologies report.

Global demand for energy storage is surging. Lithium-ion leads today, but new contenders like sodium-ion, flow, and gravity systems are shaping the future grid.

Sungrow, a global leader in PV inverters and energy storage systems (ESS), in collaboration with China Energy Engineering Corporation (CEEC), proudly announced the successful ...

Installed with Sungrow's cutting-edge liquid-cooled ESS PowerTitan 2.0, this facility marks Uzbekistan's first energy storage project and stands as the largest of its kind in Central Asia.

As energy storage costs plummet 18% annually (BloombergNEF 2025 projection), the Loncin Solar Generator positions itself not just as a gadget, but as a gateway to energy resilience.
