Which companies install solar panels in London?

Trusted Traders and provide a solar subscription option, though Sunsave is the only top-rated company that installs in London which fulfils the latter requirement.

Do solar panels work in London?

London receives more sunlight than most areas of the UK. Solar panels only require daylight to work, but they do produce more electricity under direct sunlight - which is why it's great news for solar homes that the capital is relatively sunny. It varies across the city, though.

How much does a solar & battery system cost in London?

It costs roughly £11,307 to buy and install a 4.5 kilowatt-peak (kWp) solar & battery system in London. This includes 10 solar panels, each with a 450-watt peak power rating, along with a 5kWh battery.

How many homes in London have solar panels?

56,739 homes in London have had solar panel installations certified by the Microgeneration Certification Scheme (MCS), as of June 2025. Across the capital's 32 boroughs and the City of London, that means 1.7% of all households have installed solar panels.
