Who makes metal clad & metal enclosed switchgear?

Powercon Corporation, located in Severn, Maryland, manufactures quality Metal-Clad and Metal-Enclosed Switchgear as well as a variety of other products serving the needs of the electrical industry.

What does a switchgear manufacturer do?

Manufacture, design, fabrication, and installation of low or medium voltage and arc-resistant switchgears. Features vary depending upon model, including arc mitigation, cloud-based monitoring, reinforced enclosures, cycloaliphatic epoxy insulation, copper-chrome contacts, and venting systems.

Who is a switchgear distributor?

Distributor of switchgear for government institutions, hospitals and health care facilities, manufacturing plants, universities, municipalities, retail stores and residences. Battery testing and charging, field service troubleshooting, diagnostics, repair and preventative maintenance services are also provided.

What is a Meis switchgear?

The switchgear is designed so that additional circuit breakers or auxiliary cubicles may be added in the future. Powercon's MEIS Switchgear exceeds ANSI/IEEE Standard C37.20.3, with no exceptions taken to any requirement of the ANSI/IEEE. These switches are available with either electrical or mechanical operators.
