The 500 kW liquid-cooled resistive load bank joins Aggreko's other solutions for data centers to provide a complete ecosystem for meeting the energy requirements of intensive computing.

Aggreko said it has launched a 500-kW liquid-cooled resistive load bank, purpose-built for liquid-to-liquid data center commissioning and testing for North American customers.

Prefabricated Modules are designed and built to precise specifications in a controlled factory environment and utilize DCIM software which results in improved reliability and a more predictably ...

Aggreko launches a 500 kW liquid-cooled load bank for North America, enabling accurate testing of data center cooling systems.

Aggreko, a global leader in energy solutions, announces its new 500 kW liquid-cooled resistive load bank, purpose-built for liquid-to-liquid data center commissioning and testing for North American ...

PFMIEA500C2N097A - Prefabricated IT Data Hall, 500kW, 97 Racks, Perimeter CW Cooling, Mod Distrib, 480V/60Hz.

Average asking rates for 250-to-500-kW requirements across primary markets rose by 2.5% in H1 2025, continuing a steady upward trajectory amid resilient demand and constrained ...

Digital transformation initiatives across North American enterprises fuel substantial demand for data center rack infrastructure. Organizations migrating to cloud-first strategies require scalable rack ...

HOUSTON, April 29, 2025 - Aggreko, a global leader in energy solutions, announces its new 500 kW liquid-cooled resistive load bank, purpose-built for liquid-to-liquid data center commissioning and ...
