How does the SolarEdge Home Hub work?

For homeowners interested in comprehensive home energy storage solutions, the SolarEdge Home Hub provides seamless integration with advanced battery systems for complete energy independence. When paired with SolarEdge Home Batteries and the Backup Interface, the Home Hub Inverter provides reliable backup power during grid outages.

What is the SolarEdge Home Hub inverter?

Meet the SolarEdge Home Hub Inverter, the ultimate home energy manager designed to revolutionise your solar energy system.

Are SolarEdge Home Hub inverters safe?

SolarEdge's commitment to safety is evident in the integrated safety features, making it one of the safest inverters on the market. The SolarEdge Home Hub Inverter is designed to work with SolarEdge power optimisers, allowing each panel to operate independently, which increases overall system efficiency and reliability.

Does the Home Hub inverter provide backup power during grid outages?

Yes, when paired with SolarEdge Home Batteries and the Backup Interface, the Home Hub Inverter provides up to 11.4kW of backup power during grid outages. The system automatically switches over during outages and can support essential home loads including HVAC systems.

Enhanced Safety Through SafeDC Technology: SolarEdge's proprietary SafeDC technology automatically reduces DC voltage to just 1 volt when the inverter shuts down, addressing ...

Discover the SolarEdge Home Hub inverter: one smart solution for solar, storage, EV charging, and safety -- all in one seamless system.

With record-breaking efficiency, advanced safety features, and seamless integration with smart energy devices, the Home Hub Inverter is your all-in-one solution for managing PV production, ...

The SolarEdge Home Hub Inverters manage home energy, increasing efficiency and safety with its smart

Outdoor solar power hub automatically reduces

features like arc fault detection and monitoring.

It supports seamless switching between solar, battery, and grid power--and even works with generators. Plus, it's one of the most advanced hybrid inverters on the market.

SolarEdge's proprietary SafeDC technology automatically reduces DC voltage to safe levels when the inverter shuts down, providing enhanced safety for installers, maintenance ...

It is built into the Energy Hub Inverter to keep you in the know of your solar energy consumption and production. You can maximize your solar energy use and minimize your grid-tied bills through ...

Solar power inverters serve as the essential bridge between the sun's raw energy and the electricity that powers your backyard retreat, garden workshop, or off-grid cabin.

Advanced Safety Features: Automatically reduces high voltage during installation, servicing, or emergencies for enhanced protection. Smart Monitoring: Real-time, module-level insights into solar ...

Our Solar Retrofit Power Hub is an outdoor off-grid power source that integrates with existing outdoor bus stations and whenever an off-grid power source is needed to provide access to 100% solar energy.
