-----

Solarge introduces an innovative, eco-friendly composite solar module, crafted with PERC solar cells, that is both lightweight and fully circular, eliminating PFAS materials.

A deep dive into the titans of the solar photovoltaic industry, from module manufacturing to grid intelligence. Discover the leaders shaping the energy transition.

Discover the world's biggest operational solar farms and the mega projects set to reshape tomorrow's renewable energy landscape.

Meeting international energy and climate goals requires the global deployment of solar PV to grow on an unprecedented scale. This in turn demands a major ...

The global solar market set yearly records for solar installations, solar module production and solar module manufacturing capacity in 2024, ...

Vikram Solar Signs 2 GW Solar Cell Procurement Deal with Jupiter International Worth Rs 2,000 Cr Vikram Solar announced that it has signed up with Jupiter International to secure the order ...

JA Solar's investment in Oman is not only part of its globalization strategy but also reflects Chinese enterprises' optimism about the Middle East's ...

For the Camelicious solar project, TotalEnergies installed solar panels on a camel farm in the United Arab Emirates to power 80% of the farm's ...

As of the end of 2023, the combined module capacity in Indonesia and Laos reached 3.5GW. Among overseas manufacturers, SEG Solar, Apollo, and New East Solar all have expansion ...

Chinese PV module manufacturer Haitai Solar has announced the termination of a 10GW TOPCon solar cell

# Overseas solar cell module projects

project and the cancellation of its R& D ...
