High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and ...

Yes, we offer comprehensive after-sales support including remote monitoring, maintenance services and technical support. Our mobile photovoltaic containers come with a warranty and optional service ...

Self-unloading mobile Solar Container. Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20" sea ...

As energy challenges grow, our solar container solution was created to meet the need. It provides clean, efficient power wherever you need it and can also generate profit.

The deployable 130 kWp mobile solar solution. The container integrates 196 photovoltaic modules that can be electrically deployed and retracted in less than 30 minutes. The aluminum rail system, both ...

Whether industry, agriculture, construction, or events - Sun2Fold is your reliable solar power plant. With over 30 years of energy expertise, we help you to act independently of existing grids and energy ...

Solarfold allows you to generate electricity where it's needed, and where it pays to do so. The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, ...

Photovoltaic Folding Container Exchange and After-Sales Service

Solar power Anytime and Anywhere! We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer!

It integrates advanced photovoltaic modules, inverters, and electrical cabinets into a compact and functional unit. Ideal for remote areas, emergency power supply, and various off-grid applications, ...
