Will Axpo & Energix optimise the largest battery energy storage system in Poland?

29.10.2025 - Axpo and Energix, a leading renewable energy developer and independent power producer (IPP), have signed an agreement to optimise the largest battery energy storage system (BESS) in Poland. This is yet another such contract to be signed by Axpo in Poland this year.

What will Poland's balancing market mean for energy storage?

Currently undergoing commissioning and prequalification for the balancing market, once a licence is obtained--scheduled for January 2026--it will set a new benchmark for energy storage in Poland, supporting the country's transition to a more flexible and resilient power grid.

Where is the Nowe Czarnowo energy storage facility located?

The Nowe Czarnowo energy storage facility was strategically built near the Krajnik power station, where Energix wind and photovoltaic farms already in Axpo's portfolio also operate.

Who is Axpo in Poland?

Mateusz Marczewski, Managing Director of Axpo in Poland said: "As one of the first companies in Poland, we have developed comprehensive contractual and commercial solutions for the optimisation of battery energy storage systems.

Headquartered in Shanghai with 50,000m²+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy ...

Axpo and Energix, a leading renewable energy developer and independent power producer (IPP), have signed an agreement to optimise the largest battery energy storage system (BESS) in ...

Krakow is emerging as a hub for innovative energy solutions. This article explores the growing role of independent energy storage power stations in the region, their applications, and how they align with ...

A Polish SME operating in the energy technology sector offers an autonomous mobile power supply system powered by renewable energy sources. The solution provides reliable, off-grid ...

Poland krakow outdoor mobile energy storage power supply

Here, we provide comprehensive information about photovoltaic energy storage systems, BESS solutions, mobile power containers, EMS management systems, commercial storage, industrial ...

Outdoor energy storage systems are revolutionizing how industries and individuals access power in remote locations. As a key player in this field, Poland has emerged as a hub for innovative ...

Poland's energy storage market is buzzing like a beehive in spring--and for good reason. With ambitious renewable energy targets (50% clean energy by 2040) and rising demand for grid ...

Did you know that Poland's renewable energy sector grew by 22% in 2023? Krakow, with its mix of historic charm and modern infrastructure, has emerged as a hotspot for outdoor power supply ...

As Krakow pushes toward sustainable urban development, the demand for outdoor energy storage cabinets has surged. These systems act like a "city battery," storing excess renewable energy during ...

Powerfar energy storage power supply is an outdoor large-capacity and high-power portable mobile power supply. It plays a role in wild camping, outdoor live broadcast, sea fishing, home emergency, ...
