Q-SUN is at the leading level in the field of intelligent production and manufacturing of photovoltaic modules. Founded in 2014, Q-SUN is located in Chuzhou City, on the coast of the Yangtze River.

Now the solar power facilities in the area are expected to generate 910,000 kWh of electricity each year. In addition to meeting its own energy needs, the tourism resort is also able to ...

As the flagship project among the first ten "carbon peaking and carbon neutrality" demonstration projects of CGDG, it stands as Hainan Province's first "zero carbon" and "zero energy consumption" ...

The zero energy-consuming and net zero-carbon demonstration project of the Qishui Bay tourism resort passed inspection on Sept 20, becoming the first of its kind to operate in South ...

The release of the "Longi Life Cycle Standard" promotes the high-quality development of the photovoltaic industry. At the same time, the use of Longi standard orders has improved delivery ...

Check out the top solar panel manufacturers in China, such as JinkoSolar, LONGI, Trina Solar, Astronergy, and more.

It has installed seven photovoltaic application forms, including rooftop photovoltaic power generation systems, photovoltaic glass curtain walls, and photovoltaic daylighting roofs, which can achieve ...

Bluesun Solar is a professional manufacturer of solar PV modules and energy storage systems in China, providing high-efficiency solar panels, lithium battery solutions, and turnkey PV systems for ...

In this article, we will explore the key manufacturing hubs that fuel China's solar industry, highlight the top 11 solar panel manufacturers in China, and provide an overview of the major trade fairs that are ...

Qishui Photovoltaic Panels

Project Features: The first "BRE Net Zero Carbon" and "Zero Energy Consumption" building certification project in Hainan Province. The floor tiles are laid on the green space, which is expressed through ...
