Why do companies bid for energy storage tenders?

Bidding for energy storage tenders is extremely lucrative for companies of all sizes. Tendering authorities and private companies release thousands of contracts worth millions for procurement of energy storage. Global Tenders stands out as the largest platform dedicated to tenders and government contracts.

How much does a battery energy storage system cost in China?

The procurement exercise has attracted 67 battery energy storage companies but only six have emerged as winners. The average bid stood at CNY 0.473/Wh (\$65/kWh). Public procurements in China continue to demonstrate exceptionally low price levels for lithium-ion phosphate (LFP) battery energy storage systems (BESS).

Do bid requirements read like a storage industry Hall of Fame?

Bid requirements now read like a storage industry Hall of Fame: Let's dissect China Huadian's 4GWh mega-tender that had 52 companies scrambling : The takeaway? Centralized projects are becoming price battlegrounds, while modular systems offer premium pricing--for now.

Are centralized projects becoming price Battlegrounds?

Centralized projects are becoming price battlegrounds, while modular systems offer premium pricing--for now. While China dominates headlines, India's SECI just awarded: With battery costs halving since 2020, this market's heating up faster than a samosa fryer.

China's independent power producer CGN New Energy has announced the results of its 2025 procurement for lithium iron phosphate (LFP) battery energy storage systems, which will be ...

Let's cut to the chase: if you're not paying attention to energy storage plant bidding right now, you're missing out on the Wild West of renewable energy. With Chinese giants like China ...
