What is a photovoltaic curtain wall?

They are also a strong option for major envelope refurbishments, where upgrading the curtain wall can improve performance while adding on-site renewable electricity generation. A photovoltaic curtain wall is a building-integrated photovoltaic (BIPV) system in which photovoltaic glass forms part of the curtain wall assembly.

What is photovoltaic architectural glazing?

Photovoltaic architectural glazing enables buildings to produce extra energy while maintaining their design, functionality, and views. They enhance thermal comfort and help prevent the greenhouse effect. A standard curtain wall offers no return on investment.

What is a curtain wall?

Curtain walls --also known as glass facades and exterior glazing systems --convert previously unused spaces into energy assets, enhancing both aesthetics and functionality.
