#SiduSidu #Romeo #VijayAntony #MiraliniRavi #BarathDhanasekar #KapilKapilan #KarthikNetha #VinayakVaithianathan #SiduSiduVideoSong Here's the Video Song of 'Sidu Sidu' from 'Romeo', ...

These examples are all about solar power, but there are literally countless other ways that women are proving instrumental in both adapting to and mitigating climate change ...

In many countries, discriminatory gender norms mean that decision-making power lies with men, with women having less influence over decisions about purchasing energy products.

Therefore, mobilising community energy workers from among these consumers can promote awareness of cleaner, affordable and reliable energy sources as well as prepare a ...

So, how is our solar industry performing for equality and diversity? Solar does not only lead in renewable generation; our sector also leads the way for gender inclusion.

Women are actively involved in decision-making processes and operational management, ensuring men and women benefit equally from improved agricultural productivity.

Based on the literature review we developed a theoretical framework that depicts various channels through which clean and reliable solar electricity might improve women's empowerment.

Renewable Energy Gender Gap: Explore women's roles in India's male-dominated solar and wind sectors, highlighting challenges and opportunities.

This perspective reviews solar energy initiatives focusing on women's engagement run by NGOs and partially funded by the Indian central government, and gendered analyses of large-scale ...

Sidu solar power generation is open to both men and women

The solar sector has led by example in providing training and upskilling programmes, which continue to play a key role in bringing more women into the male-dominated energy arena.
