From urban rooftops in Ljubljana to agricultural facilities in eastern Slovenia and remote alpine locations, hybrid and off-grid solar battery solutions are gaining momentum.

Energy storage outdoor integrated cabinet is a distributed energy storage system suitable for industrial and commercial scenarios. It can convert renewable energy such as solar energy and wind energy ...

Slovenia selected a range of projects eligible for support via the European Union's Modernisation Fund. The focus is on battery storage and distribution grid. Two proposals for ...

Our R& D Centre is ready to develop, optimize and test battery packs from the ground up, ensuring we deliver a fully functional plug & play system. From initial requirements alignment to aftersales ...

With our C& I battery storage systems, you don't have to be physically present to monitor your energy usage. Our cutting-edge technology allows you to configure and control the system locally or ...

Two battery energy storage systems were installed in Slovenia to facilitate the transition to future electricity systems in which electricity production from dispersed renewables and the active ...

The 372kWh LiFePO4 Solar Battery Storage Cabinet is a renewable energy commercial and industrial-scale intelligent energy storage system. Engineered with superior quality lithium iron phosphate ...

372kWh 1331V Battery Storage Cabinet with Liquid-Cooling BESS-372K, the liquid cooling battery storage cabinet that offers high safety, efficiency, and convenience.

100kW/215kWh outdoor integrated cabinet for industrial and commercial storage. Suitable for various industrial and commercial application scenarios such as industrial parks and commercial complexes, ...

Slovenia replaces solar communication battery cabinet 372kWh

EK-372KWh Outdoor Cabinet Series C& I Energy Storage System EK conducted a comprehensive and multi-level test on the 372kWh liquid-cooled smart outdoor cabinet, mainly including mechanical ...
