---

Spain's Instituto para la Diversificaci&#243;n y Ahorro de la Energ&#237;a (IDAE) has issued a provisional funding proposal for the country's first call ...

Spain has set ambitious renewable energy targets, increasing the need for large-scale storage to manage variability from solar and wind generation. Alpiq, which has operated ...

The portfolio includes both hybrid projects combining solar photovoltaic generation with storage and stand-alone battery energy storage systems (BESS). Extremadura ...

Altogether, the selected projects will add 2.2 GW of power output and 9.4 GWh of storage capacity. The renewable technologies paired with hybrid storage projects are mainly ...

Spain's battery storage program expanded to EUR840M, funding 143 projects totaling 8.9GWh. Learn how this initiative creates opportunities for solar-storage hybrids and boosts ...

Spain has chosen the 143 energy storage projects that will receive capex support from an EU-backed scheme, totalling nearly 9GWh ...

Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It ...

Spain boosts energy storage with new projects, highlighting batteries, solar hybridization and permits after the April blackout.

The selected projects range from large-scale battery systems to industrial thermal storage and new pumped-hydro plants, reflecting both the technological maturity of the sector ...

## Spain new energy power generation project energy storage

Lausanne - Alpiq has acquired the Navaleo pumped hydro storage project in Castilla y Le#243;n, Spain. Developed by Erbienerg#237;a, a leading renewable energy company with deep ...
