-----

All-in-one modular data center with integrated cooling, scalable 3-30kV power, and environmental monitoring for edge deployment. Dust-proof, weather-resistant design.

The EDGE-3 will reduce equipment noise up to 28.5dBA (99.9%) of IT noise, while providing a thermal load capacity of 11.5kW. The EDGE-3 is an excellent all round 19" data, comms and server cabinet, ...

Our cabinets can be fitted with or without climate control and are engineered for efficiency, offering precise temperature regulation to prevent overheating. Whether deployed indoors or in rugged ...

Explore what Edge computing is and how it (and the right IT enclosure system) can handle scalability, security, protection, disruptors, and standalone solutions.

Data-center-tested network/server cabinet offers secure installation of 19" equipment, flexible use of accessories for power and data cabling, integrated cooling air routing, and high-quality protection ...

AZE's 19" outdoor server racks and outdoor network cabinets are ideal for protecting sensitive network systems from any damage due to impacts and harsh climatic conditions.

Our cabinets are sourced from trusted suppliers to ensure optimal performance and security for your data infrastructure. Every server ...

ArcTiv Edge-Series Cabinets are designed for protecting and managing networking devices commonly used in PoE+, IIoT and Edge-Computing applications.

42U rack cabinet and 5.5 kW rack-mount air conditioner combo kit provides cooling to IT equipment in server rooms and edge computing applications.

# Temperature and humidity controlled network cabinets for edge computing

Edge computer enclosures are ruggedized cabinets designed to provide physical protection, thermal management, and power management for edge computing devices operating in harsh environments.
