How much does a Tesla Solar Roof cost?

Tesla's Powerwalls are solid options, but they're also quite expensive. The typical price of a solar battery, according to my research, falls between \$6,000 and \$18,000, depending on the capacity you need and the brand you choose. Tesla allows you to pay for your Solar Roof in full up-front with cash or finance your purchase with a loan.

Can a solar roof power a home?

Install Solar Roof and power your home with a fully integrated solar and energy storage system. The glass solar tiles and steel roofing tiles look great up close and from the street, complementing your home's natural styling. Schedule a virtual consultation with a Tesla Advisor to learn more.
