What are HVAC outdoor Telecom enclosures & cabinets?

AZE's HVAC outdoor telecom enclosures and cabinets are designed specifically to protect high density installations of network equipment in outdoor environments and are ideal for wireless, wireline, and utility and applications.

What is a climated controlled outdoor equipment cabinet?

Our floor or pad mount climated controlled outdoor equipment cabinets are ideally suited for Macro Cell Site and Centralized Radio Access Network (CRAN) applications. AZE has developed a line of solutions to assist these deployments with rugged and compact enclosures for today's dynamic cell site needs.

What makes a good climate-controlled cabinet?

A quality climate-controlled cabinet begins with insulation. At American Products,we recommend all enclosures with climate control be outfitted with insulation. Using insulation helps to control how much heat is allowed in and out of your enclosure. This makes your heater or air conditioner more efficient.

Why is a temperature-controlled enclosure important for telecommunications equipment?

Telecommunications equipment can be sensitive to extreme temperatures. Protecting this equipment means managing airflow,temperature,and cooling technology. In fact,temperature-controlled enclosures are key to the survivability of the electronics residing there.
